Installation Instructions

A durable glue bond inside the cylinder's guard ring is the recommended method of attachment. For detailed installation guidelines, refer to the Xerafy LPG Cylinders guide.

1. Select a mounting location inside the cylinder's protection ring.
2. Clean the surface thoroughly for strong adhesion.
3. Apply glue evenly to the back of the Xylinder tag.
4. Press the tag vertically and firmly onto the surface.
5. Use tape to hold the tag in place while the glue cures.
6. Remove the tape after 24 hours (curing time may vary by adhesive).
